

Outcome Measures in Practice ECHO session – 30 May 2019

Chat Box conversation on Useful Resources

From Queenscourt: Definitely a video about phase illness please - I thought I understood it and now realise I don't!

From Vanessa Gibson Sue Ryder : We are early days so anything to help us to begin to talk to staff groups would be helpful.

From Kimberly Rice & Sherree Smith : It would be really useful to have a training tool on What phase really means. Thanks

From Sarah Wells, Marie Curie West Midlands : A short video on phase of illness would be very useful. Something specific on completing a proxy IPOS,

From Jane Newson hope@trinity : I think we could provide some interesting information about gaps in service and I'd be interested in hearing about involvement in the pilot programme as we are working with homeless and vulnerable.
